ideiglenes: Beccaria Szabványok a bűnmegelőzési projektek minőség

pirminis vertimas: BECCARIA - SEPTYNI ŽINGSNIAI Į SĖKMINGĄ NUS PREVENCIJOS PROJEKTA

tymczasowy: Standardy Beccaria dla zapewnienia jakości projektów i

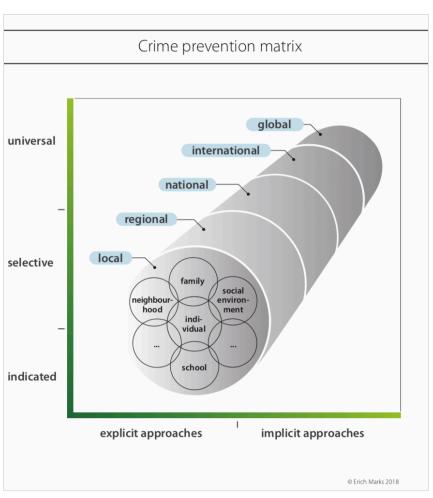

- prevention is not a fire extinguisher, prevention is fire protection
- prevention requires quality management, standards, qualification and further training of prevention managers, implementation management, evaluation, prevention planning,...

Prevention needs methodology and evidence

- successful preventive action requires data
- example: Communities
 That Care (CTC)
- use of databases with listed prevention programmes which have been positively evaluated

Prevention: is mainly local

- universal selective indicated
- explicit vs. Implicit approaches
- it takes an entire village to raise a child
- every municipality should have interdisciplinary prevention centres

Prevention: above all politics, science and practice

- prevention-politics prevention-research prevention-practice
- multidisciplinarity profiles information
- local / regional national international

Prevention: a task for the society as a whole

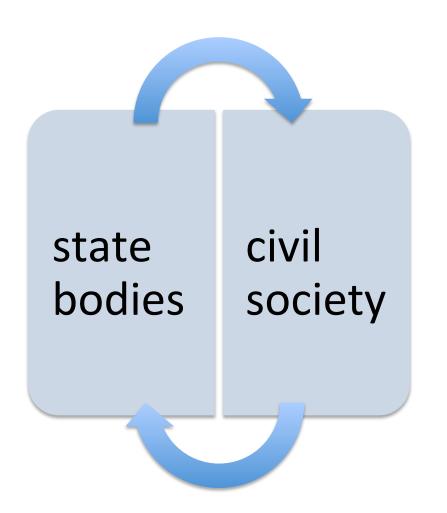

- the regular informal exchange of all prevention actors is a success factor
- main target groups are:
 administration, health
 system, youth welfare,
 judicary, churches, local
 authorities, media, politics,
 police, prevention
 committees, projects,
 schools, organizations and
 associations, science, ...

Prevention: a strong economic measure

- investing in prevention has many positive effects and reduces government spending
- investments in prevention reduce follow-up and repair cost
- cost-benefit analyses are often better than 1:5

Prevention means shared attention

- Prevention works
 particularly well in
 cooperation between
 democratic institutions
 and civil society
- Full-time and honorary positions complement each other
