Understanding of Prevention II

Understanding of Prevention III

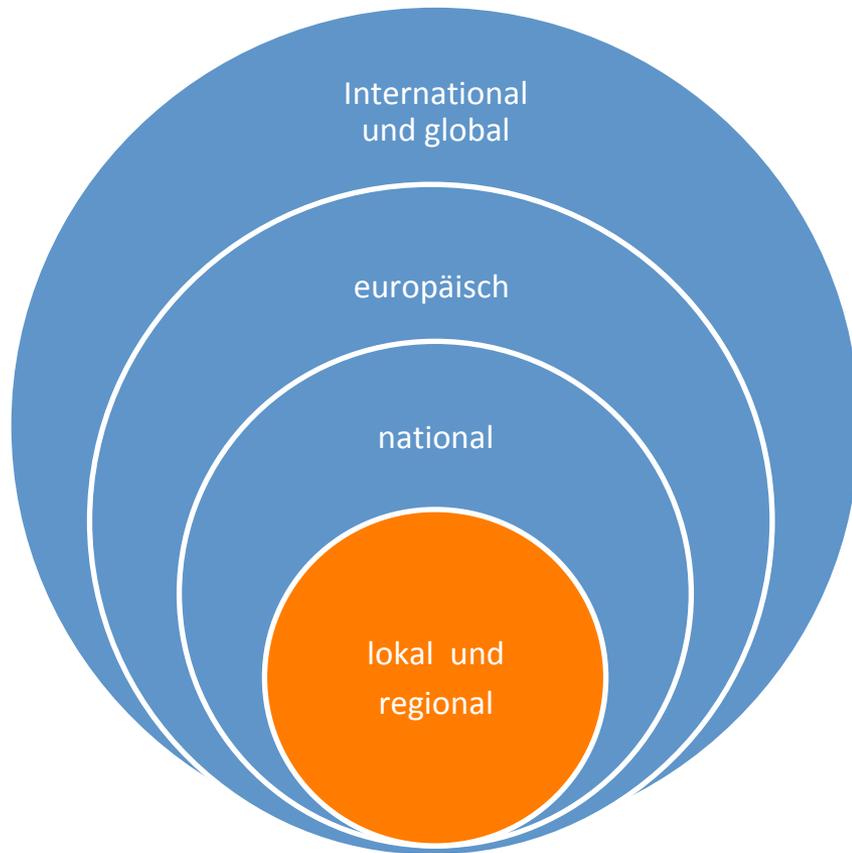

Prevention is mainly local I

"90 % of crime, i.e. 100 % of victims and victims of crime and about 75 % of perpetrators live and act at local level. ...

The great opportunities and possibilities for crime prevention only exist at the municipal level!"

Prof. Jörg Ziercke
President of the Federal Criminal Police Office (ret.)

Prevention is mainly local II

- universal - selective – indicated
- explicit vs. Implicit approaches
- it takes an entire village to raise a child
- every municipality should have interdisciplinary prevention centres
