Kongress 2017 · Hannover

19./20. Juni 2017

11th AIF / 22nd GCOCP

“Understanding is not the same as denying the monstrous, comparing the unprecedented with precedents or explaining phenomena with analogies and generalisations that disregard the harrowing reality and shocking experience...

Understanding means confronting reality without bias, whatever this reality is or was.”

Hannah Arendt (1906 – 1975)
